Australia.

Dear Bill:

On checking my correspondence files, I was amazed to discover that it is 18 months since we have communicated. I could hardly believe it. So thought I had better sit down right now and get busy.

Unfortunately, there has been very little activity in Canada recently and hence really nothing to report. What little there is has been reported in CANADIAN UFO REPORT and I know you receive this so you are essentially up to date.

I tried to get our National Research Council interested in Harmonic 695 and to state whether Cathie was right or wrong but they will not comment. Typical government organization.

By the way, I had been intending to write you some time ago concerning payment for the last two shipments of my book, namely six copies on 12 September 1971 and a further six on 30 Nov. 71 for a total of \$34.20 Canadian. You said in your letter of Dec. 24th 1971 (your last letter) that you would forward payment in January 1972 but it has never arrived. As I am now down to my last half dozen copies, I will be closing out my business and so would appreciate early settlement in order to close your account. I am sorry to bother you about this but I am sure it has just been overlooked. Copies of last two invoices are enclosed.

Nothing else right now as things are so very quiet. Looking forward to hearing from you.

Kindest regards,

Arthur Bray
