

in the back of their necks. I don't know if our government is aware of that or not. At any rate you can consider 1 in 40 (and that's conservative), has been altered one way or the other. And when they altered and put under command they do exactly what their told, and nothing else, and then they don't remember it. (It's sickening)

W.S. - The whole thing seems out of place and out of proportion and something should be done about it.

P.B. - At any rate - we advised the authorities we gave them the evidence and now we are waiting.

W.S. - Maybe the proper authorities were told to keep out of it.

P.F.B. - The crash-site is only a mile and a half to 2 miles up wind from Dulce and when that Plutonium goes, and it is melting, when it goes into the atmosphere, gets into the surrounding ground, and what have you - its half life is 20,000 years (that means in 20,000 years it will be half as strong as it now is) That stuff goes down hill, it gets into the water, the cattle eat it and drink it.
