

origin, which is the O N L Y REASON of the officially stated POTENTIAL THREAT. Over four decades a suppressive cover up policy blindfolds this lunatic armed confrontation before the public at large.

This deceptive policy resulted all over the world the establishment of the private UFO research communities, which research to each other, but a main part under the influence of the secret services(intelligence), with their doctrines of "parapsychology","beyond reality","messages of invisible space brothers", evacuation of the humanity, etc. are rather dangerous than beneficial to the population. Recently they selfcreated "UFO experts" are blustering with the declassified military documents and demanding their RIGHTS to CONTROL the governments, and INSTRUCT the military forces on the UFO research.

UNITED STATES CONFIRMS

In accordance with our consultation with leading authorities, including the military in Europe (1980), in 1981/82 with conclusive military documentation of the Pentagon, we urged President Ronald Reagan to activate the solution of the problem, before it is too late...(Enclosure # 3.) In response I received a fearful verification of the State Department's 1978 warning from the National Security Council "THE PRESIDENT IS WELL AWARE OF THE THREAT(UFO forces) YOU DOCUMENT SO CLEARLY..."(Encl.# 4.)

From this time common sense UFO researchers are submitting Memorandums to their governments requesting to initiate cooperative action with other nations toward the solution of the UFO problem. (Austria, W.Germany, Denmark,Argentina, Brazil, Canada, etc.)

QUESTION OF SURVIVAL

Because the clock of history on Downing Street is vascillating every day between war and peace - it should also alert Her Majesty's government for the urgent action the U.S. National Security Agency's declassified draft -THE UFO HYPOTHESIS AND QUESTION OF SURVIVAL (Encl.# 5.) This concluded already in the year of 1968(!!!) the followings "It would be geared to developing adequate defense measures (to overcome and destroy the UFO forces) in a minimum amount of time."

Just a reminder! - The obsessed strategic arms race in the outer space between USA. and USSR. started in a minimum amount of time in 1969! - In consideration of our survival, it is not necessary to be even a general to realize that during the 14 years of SALT I - III marathon talks on the strategic weapons, why at each talk instead of reduction and limitation surprisingly became INCREASED and MORE SOPHISTICATED? - Against whom? Did the late war leader Gen. Douglas MacArthur still on Oct. 19,1956 envision the truth when stated "The countries of Earth will have to unite to survive and to make a common front against attack by people from other planets." In waiting, is Her Majesty's government by further negligence and cover up, starting the suicide of humanity and our civilization?

ACTION IS VITAL

By the enclosed documentation, may we request Your Excellency's serious attention to ponder the recent political crisis and military tensions with your governmental responsibility, which further suppress the UFOs crucial problem, so that you may act before it is too late...
