Mr. Arthur Bray
1187 Agincourt Rd.
Ottawa, Ontario K2C 2H8

Dec. 13, 1980

Dear Arthur:

Sorry for the delay in responding to your note of Nov. 23. I was gone for almost a month and am still not finished with all the mail, book orders, etc.

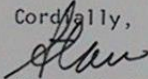

My reasons for moving to Fredericton are pretty much summed up in the enclosed family letter. Our home is just a mile from the Univ. of NB.

The order blank book list is enclosed. sorry for leaving it out.

I did get your book more promptly than might have been expected considering the slow pace of much of the mail here. I'm about half way through it. Rather dismayed at the anti-Science attitude displayed frequently. I get the feeling that you have had some bad experiences and perhaps have overly generalized. I can find no basis for the notion that most scientists are anti_UFO.. one can't blame the majority for the nasty negativism of the small minority any more than one can blame the bulk of ufologists for the Adamski, Billy Meier, Tim Beckley etc nonsense.. Perhaps the enclosed paper on public opinion will be helpful.

I'll have more to say when I finish it....

Cordially,

Stan Friedman
