

Wait and Garland. I sent a letter to D.O.T. requesting a biography on him, but they said they couldn't find him as there are 150 civil servants with the same name.

Walt Ladus told me a story Wilbert told him about a communications expert disappearing. Are you familiar with this story?

Do you have much on J.T. Wilson, James Wait, and G. Garland? They all became highly successful but I have nothing on what they did for Wilbert. J.T. Wilson was a colleague of Dr. Lloyd Berkner.

The discussion notes 8/5/85 are from Robert Bletchman, attorney at law, member of Citizens Against UFO Secrecy. I now have a copy of Steinman's interview by phone with Surobcher - will send this too.

Any idea where the rest of the material is that Wilbert gathered for the Smith Nov. 21 memo. In all the Surobcher material I have seen Surobcher does not mention Bush as the head, or a "small group," or the "motel phenomena." As far as things there is still a piece missing.

Do you have Mrs. Swans address? I think we will have someone in the U.S. filing for documents on this and maybe Wilbert Smith material as well.
