

NEWSLETTER

Welcome to CAPRO! We trust our relationship will be mutually beneficial to all concerned. The prime purpose for the founding of CAPRO is to investigate the puzzling U. F. O. phenomena and to make our findings available to the public with a view to encourage a detailed scientific study of U. F. O.'s in Canada. For this reason, we hope that all CAPRO members will take every opportunity to investigate reports that come to their attention.

You need not be an expert to interview witnesses. However, we would like to pass on a few helpful suggestions. Make every effort to conduct an interview with another CAPRO member. We have found from experience that two members can handle an investigation much more effectively than one. It is often possible to miss important details when you are alone and this can be eliminated when another member is there to follow up on any questions that you may fail to ask. You will notice that a small supply of investigation sheets were enclosed with your membership card. ALWAYS use this form in your question period with the witness. If you have access to a tape recorder, you will find it a great assistance during interviews. If you wish a member of the Executive Committee to accompany you on your initial investigations, please do not hesitate to contact them. This can be arranged by calling the Director at 832-0629. Out of town members are encouraged to write us regarding any questions at P. O. Box 1316, WINNIPEG 1, Manitoba.

CAPRO is a non-profit study group and we, therefore, ask you to publicize the organization as much as possible and solicit additional members. Simple economics dictate that we strive for a large membership to finance our investigations and special projects. We are planning to produce an educational film on U. F. O.'s which will be available to T. V. stations and group meetings. There will be more information on this at a later date.

Lastly, I would ask you to write us anytime regarding any questions you may have. We will also consider any articles you may wish to write on the subject of U. F. O.'s for publication in our Newsletter. Please forward copies of your investigations to CAPRO headquarters in Winnipeg. We will endeavour to publish as many as possible in the publication. Good Hunting!

BRIAN C. CANNON,
Director.
