

In lack over eight months President Ronald Reagan's attention to our FIRST MEMORANDUM (Jan.28, 1981), on September 28, 1981 ICUFON and its joint UFO Organizations in factual research, respectfully sent a SECOND MEMORANDUM.

The Memorandum's massive enclosures (17) relentlessly exposed that THREE PRESIDENTS OF THE UNITED STATES AND TWO SECRETARY GENERALS OF THE UNITED NATIONS were silenced and thwarted IN THEIR OFFICE by an "UNIDENTIFIABLE" CONSPIRATORY CABAL to act toward the solution of the UFOs crucial international security problem.

The Memorandum points out the dangerously increased - but deeply silenced - UFO surveillance concentrated on the mighty powers and their allies demonstrative military operations on the Middle and Far East. It also warns about the murderous arms race by U.S.A. and U.S.S.R. to achieve annihilating strategic (space) weapons, whose emergency seems to be mobilized against the sinister UFO forces (monitored by the NORAD and the USSR) rather, than to extirpate the human race for divergent ideological conceptions.

ICUFON's GREEN and BLUE MEMORANDUMS, filed in 1978/79 and 1980 with the Member Nations of the United Nations, urged through declassified military evidences as solution of the UFOs global problem:

- 1/ Lift up the cogent military secrecy on the UFO LEVEL - ONLY;
- 2/ Establish a formal International UFO Authority (WASA Project) for the global security and communication with extraterrestrial intelligence with the assistance of the scientific and worthy non-governmental UFO organizations.

We are repeatedly requesting the President of the United States to initiate action, including his statement on the UFO problem, being mandatory for him as shown by the government's (Pentagon, CIA, FBI, NSA, etc.) declassified documents. It is also urgently needed that the United States intervene at the United Nations TO STOP IMMEDIATELY ANY ARMED AND PROVOCATIVE CONFRONTATION WITH THE UFO FORCES!

Hoping that you will realize the vital importance of the enclosed documents, and therefore fulfill your responsibility towards the American and world public, I remain

Sincerely yours,

E. J. VonKeviczky
Major Ret. Colman S. VonKeviczky, MMSE
Director of ICUFON
