

For your information, I have completed my second book on UFOs, titled The UFO Connection and am presently seeking a publisher. Two rejections so far. My "connection" is between UFOs and parapsychology. One chapter also deals in depth with the real story of Project Magnet and Second Storey which I have been researching for a long time. I have acquired much of Wilbert Smith's papers. Another chapter exposes UFO cover-up in the Canadian government. Do you think that Henry Regnery might be interested in a book of this nature?

My best wishes for 1979 from Dorothy and I to you and Mimi.

Yours sincerely,

Arthur Bray.
