

APPENDIX A

29 Jan 78

Dear Enquirer;

The incident stated in the attached report actually occurred. The Air Force appointed a special team of individuals to investigate the incident. I was one of those individuals. I am still on active duty and so I cannot state my name at this time. It is not that I do not trust the Enquirer (I sure you would treat my name with confidence) but I do not trust others. The incident which occurred on 16 Nov 77, was classified top secret on 2 Dec 77. At that time I obtained a copy of the original report. I thought at that time that the Air Force would probably hush the whole thing up, and they did. The Air Force ordered the silence on 1 Dec 77, after which, the report was classified. There were 16 pictures taken at the scene. I do not have access to the pictures at this time.

CONTINUED FROM ITEM #10

Force) #16#2, were formed. At 2340hrs., 16 Nov 77, the following information was learned: Upon arrival (2132hrs) at Site #L-9, LSAT, JENKINS & RAEKE, dismounted the SAT vehicle to make a check of the site fence line. At this time RAEKE observed a bright light shining vertically upwards from the rear of the fence line of L-9. (There is a small hill approximately 50 yards behind L-9) JENKINS stayed with the SAT vehicle and RAEKE proceeded to the source of the light to investigate. As RAEKE approached the crest of the hill, he observed an individual dressed in a glowing green metallic uniform and wearing a helmet with visor. RAEKE immediately challenged the individual, however; the individual refused to stop and kept walking towards the rear fence line of L-9. RAEKE aimed his M-16 rifle at the intruder and ordered him to stop. The intruder turned towards RAEKE and aimed a object at RAEKE which emitted a bright flash of intense light. The flash of light struck RAEKE'S M-16 rifle, disintegrating the weapon and causing second and third degree burns to RAEKE'S hands. RAEKE immediately took cover and concealment and radioed the situation to JENKINS, who in turn radioed a 10-13 distress to Line Control. JENKINS responded to RAEKE'S position and carried RAEKE back to the SAT vehicle. JENKINS then returned to the rear fence line to stand guard. JENKINS observed two intruders dressed in the same uniforms, walk through the rear fence line of L-9. JENKINS challenged the two individuals but they refused to stop. JENKINS aimed and fired two rounds from his M-16 rifle. One bullet struck one intruder in the back and one bullet struck one intruder in the helmet. Both intruders fell to the ground, however, approximately 15 seconds later both returned to an upright position and fired several flashes of light at JENKINS. JENKINS took cover and the light missed JENKINS. The two intruders returned to the east side of the hill and disappeared. JENKINS followed the two and observed them go inside a saucer shaped object approximately 20' in diameter and 20' thick. The object emitted a glowing greenish light. Once the intruders were inside, the object climbed vertically upwards and disappeared over the Eastern horizon. BAF #1 arrived at the site at 2230hrs., and set up a security perimeter. Site Survey Teams arrived at the site (0120hrs.) and took radiation readings, which measured from 1.7 to 2.9 roentgens. Missile Maintenance examined the missile and warhead and found the necules compotents missing from the warhead. COL. SPRAKER, Wing Cmdr, arrived at the site

OFFICIAL USE ONLY

CONTINUED FROM ITEM #10

and declared the site a National Defense Area and ordered all non essential personnel out of the area. All evidence found at the scene and the follow-up report will be classified by order of COL. Spraker.

ADDITIONAL INFORMATION: RAEKE was treated at the Base Hospital by MOD (Capt) Sanders for second and third degree radiation burns to each hand. RAEKE was Air-O-Vac'd to an unspecified location. RAEKE'S M-16 rifle could not be located at the site.

OFFICIAL USE ONLY

APPENDIX B

Re: Gov't. Inter-
ference &
M.I.R. (?)

Dear Sir;

On July 16, 1980, at between 10:30 - 10:45AM, Craig R. Weitzel, 644 Wind Glove Rd, Marietta, Georgia, a Civil Air Patrol Cadet from Dobbins AFB, Ga, visiting Kirtland AFB, NM, observed a dull metallic colored UFO flying from South to North near Pecos New Mexico. Pecos has a secret training site for the 1550th Aircrew Training and Testing Wing, Kirtland AFB, NM. WEITZEL was with ten other individuals, including USAF active duty airmen, and all witnessed the sightings. WEITZEL took some pictures of the object. WEITZEL went closer to the UFO and observed the UFO land in a clearing approximately 250 yds, NNW of the training area. WEITZEL observed an individual dressed in a metallic suit depart the craft and walk a few feet away. The individual was outside the craft for just a few minutes. When the individual returned the craft took off towards the NW.

On July 17, 1980, at about 2210hrs., Weitzel was in his temporary billets on Kirtland AFB, NM, when an individual dressed in a dark suit, came to his door. The individual was described by Weitzel as being: 6'3" tall, weight, 170 lbs, slender built, dark black hair, dark eyes, wearing sunglasses, narrow shaped face. The individual identified himself as a Mr. Huck from Sandia Laboratories, a secret Depart of Energy Contractor on Kirtland AFB. Mr. Weitzel, not being from the Albuquerque area, did not know what Sandia was. After obtaining an explanation from the individual, Weitzel allowed the individual in. The individual told Weitzel that he saw something yesterday near Pecos that he shouldn't have seen. The individual stated the craft was a secret craft from Los Alamos, NM. The individual demanded all the photographs. Mr. Weitzel explained that he didn't have any photographs, that all the photographs were with a USAF airman and Weitzel didn't know the individuals name. The individual warned Weitzel not to mention the sighting to anyone or Weitzel would be in serious trouble. After the individual left Weitzels room, Weitzel wondered how the individual knew of the sighting because Weitzel didn't report the sighting to anyone. Weitzel became scared after thinking of the threat the individual made. Weitzel call the Kirtland AFB Security Police and reported the incident to them. They referred the incident to the Air Force Office of Special Investigations (AFOSI), which investigates these matters according to the security police. A Mr. Dody, a special agent with OSI, spoke with Weitzel and took a report. Mr. Dody also obtained all the photographs of the UFO. Dody told Weitzel he would look into the matter. That was the last anyone heard of the incident.

I am a USAF Airman assigned to the 1550th Aircrew Training and Testing Wing at Kirtland AFB, NM. I was with Weitzel during the sighting, however, I did not see the craft land. I spoke with Weitzel after this Mr. Huck visited him. Weitzel was very upset and wanted something done about it. But after Weitzel spoke with the OSI, Weitzel changed his attitude. Weitzel didn't want to talk about the matter anymore. I called and spoke with Mr. Dody. He disavowed any knowledge of the photographs and stated Weitzel decided not to make a report of the sighting.

I have every reason to beleive the USAF is covering up something. I spent a lot of time looking into this matter and I know there is more to it than the USAF will say. I have heard rumors, but serious rumors here at Kirtland

that the USAF has a crashed UFO stored in the Manzano Storage area, which is located in a remote area of Kirtland AFB. This area is heavily guarded by USAF Security. I have spoke with two employees of Sandia Laboratories, who also store classified objects in Manzano, and they told me that Sandia has examined several UFO's during the last 20 years. One that crashed near Roswell NM in the late 50's was examined by Sandia scientists. That craft is still being store in Manzano.

I have reason to beleive OSI is conducting a very secret investigation into UFO sightings. OSI took over when Project Blue Book was closed. I was told this by my commander, COL Bruce Purvine. COL Purvine also told me that the investigation was so secret that most employees of OSI doesn't even know it. But COL Purvine told me that Kirtland AFB, AFOSI District 17 has a special secret detachment that investigates sightings around this area. They have also investigated the cattle mutations in New Mexico.

I don't expect you people can do anything about this, but I thought I'd let you know. I must remain anonymous because I am a career ariman with tIme remaining on active duty. I feel I would be threatened if I disclosed my name. I know that you people can't guarantee my anonymity.

COMPLAINT FORM

ADMINISTRATIVE DATA

TITLE KIRTLAND AFB, NM, 13 Aug 80, Possible Hostile Intelligence Intercept Incident, Frequency Jamming.	DATE 14 Aug 80		TIME 0730
	PLACE AFOSI District 17 B1D, Kirtland AFB, NM		
	HOW RECEIVED ☒ IN PERSON ☐ TELEPHONICALLY ☐ IN WRITING		
	SOURCE AND EVALUATION 1960th Communication Officer		
	RESIDENCE OR BUSINESS ADDRESS 1960 COMMSq KAFB, NM		PHONE 4-5098
	CR _____ APPLIES		

SUMMARY OF INFORMATION

- REMARKS**
- On 13 Aug 80, 1960 COMMSq Maintenance Officer reported Radar Approach Control equipment and scanner radar inoperative due to high frequency jamming from an unknown cause. Total blackout of entire radar approach system to include Albuquerque Airport was in effect between 1630-2215hrs. Radar Approach Control back-up systems also were inoperative.
 - On 13 Aug 80, Defense Nuclear Agency Radio Frequency Monitors determined, by vector analysis, the interference was being sent from an area (V-90 degrees or due East) on DAF Map coordinates E-28.6. The area was located NW of Coyote Canyon Test area. It was first thought that Sandia Laboratory, which utilizes the test range was responsible. However, after a careful check, it was later determined that no tests were being conducted in the canyon area. Department of Energy, Air Force Weapons Laboratory and DNA were contacted but assured that their agencies were not responsible.
 - On 13 Aug 80, Base Security Police conducted a physical check of the area but because of the mountainous terrain, a thorough check could not be completed at that time. A later foot search failed to disclosed anything that could have caused the interference.
 - On 13 Aug 80, at 2216hrs., all radar equipment returned to normal operation without further incident.
 - CONCLUSION:** The presence of hostile intelligence jamming cannot be ruled out. Although no evidence would suggest this, the method has been used in the past. Communication maintenance specialists cannot explain how such interference could cause the radar equipment to become totally inoperative. Neither could they suggest the type or range of the interference signal. DNA frequency monitors reported the interference beam was wide spread and a type unknown to their electrical equipment. Further checks of the area was being conducted by Technical Services, AFOSI.
 - High command interest item. Briefings requested IAW AFOSIR 124-4, be completed at HQ AFOSI/IVOE. HQ CR 44 and 51 items.

II SUMMARY OF INFORMATION
REMARKS
1. On 2 Sept 80, SOURCE related on 8 Aug 80, three Security Policemen assigned to 1608 SPS, KAFB, NM, on duty inside the Manzano Weapons Storage Area sighted an unidentified light in the air that traveled from North to South over the Coyote Canyon area of the Department of Defense Restricted Test Range on KAFB, NM. The Security Policemen identified as: SSGT STEPHEN FERENZ, Area Supervisor, AMN W. RIST and AMN ANTHONY D. FRAZIER, were later interviewed separately by SOURCE and all three related the same statement: At approximately 2350hrs., while on duty in Charlie Sector, East Side of Manzano, the three observed a very bright light in the sky approximately 3 miles North-North East of their position. The light traveled with great speed and stopped suddenly in the sky over Coyote Canyon. The three first thought the object was a helicopter, however, after observing the strange aerial maneuvers (stop and go), they felt a helicopter couldn't have performed such skills. The light landed in the Coyote Canyon area. Sometime later, three witnessed the light take off and leave proceeding straight up at a high speed and disappear. 2. Central Security Control (CSC) inside Manzano, contacted Sandia Security, who conducts frequent building checks on two alarmed structures in the area. They advised that a patrol was already in the area and would investigate. 3. On 11 Aug 80, RUSS CURTIS, Sandia Security, advised that on 9 Aug 80, a Sandia Security Guard, (who wishes his name not be divulged for fear of harassment), related the following: At approximately 0020hrs., he was driving East on the Coyote Canyon access road on a routine building check of an alarmed structure. As he approached the structure he observed a bright light near the ground behind the structure. He also observed an object he first thought was a helicopter. But after driving closer, he observed a round disk shaped object. He attempted to radio for a back up patrol but his radio would not work. As he approached the object on foot armed with a shotgun, the object took off in a vertical direction at a high rate of speed. The guard was a former helicopter mechanic in the U.S. Army and stated the object he observed was not a helicopter. 4. SOURCE advised on 22 Aug 80, three other security policemen observed the same

aerial phenomena described by the first three. Again the object landed in Coyote Canyon. They did not see the object take off.

5. Coyote Canyon is part of a large restricted test range used by the Air Force Weapons Laboratory, Sandia Laboratories, Defense Nuclear Agency and the Department of Energy. The range was formerly patrolled by Sandia Security, however, they only conduct building checks there now.

6. On 10 Aug 80, a New Mexico State Patrolman sighted an aerial object land in the Manzano's between Belen and Albuquerque, NM. The Patrolman reported the sighting to the Kirtland AFB Command Post, who later referred the patrolman to the AFOSI Dist 17. AFOSI Dist 17 advised the patrolman to make a report through his own agency. On 11 Aug 80, the Kirtland Public Information office advised the patrolman the USAF no longer investigates such sightings unless they occur on a USAF base.

7. WRITER contacted all the agencies who utilized the test range and it was learned no aerial tests are conducted in the Coyote Canyon area. Only ground tests are conducted.

8. On 8 Sept 80, WRITER learned from Sandia Security that another Security Guard observed a object land near an alarmed structure sometime during the first week of August, but did not report it until just recently for fear of harassment.

9. The two alarmed structures located within the area contains HQ CR 44 material.

REMARKS

On 24 Oct 80, Dr PAUL FREDRICK BENNEWITZ, Male Born 30 Sep 27, KS, Civ, SSAN: [b7C]
b7C] Albuquerque, NM, contacted SA RICHARD C. DOTY through Major
ERNEST E. EDWARDS, Commander, 1608 SPS, Kirtland AFB, NM and related he had knowledge and
evidence of threats against Manzano Weapons Storage area. The threat was from Aerial
phenomena over Manzano.

On 26 Oct 80, SA DOTY, with the assistance of JERRY MILLER, GS-15, Chief, Scientific
Advisor for Air Force Test and Evaluation Center, KAFB, interviewed Dr. BENNEWITZ at his
home in the Four Hills Section of Albuquerque, which is adjacent to the northern boundary
of Manzano Base. (NOTE: MILLER is a former Project Blue Book USAF Investigator who was
assigned to Wright-Patterson AFB W-PAF, OH, with FTD. Mr. MILLER is one of the most know
ledgeable and impartial investigators of Aerial Objects in the southwest). Dr. BENNEWITZ
produced photographs and over 2600 feet of 8mm motion picture film depicting unidentified
aerial objects flying over and around Manzano Weapons Storage Area and Coyote Canyon Test
area. Dr. BENNEWITZ has been conducting independent research into Aerial Phenomena for
the last 15 months. Dr. BENNEWITZ also produced several electronic recording tapes.

FILES TO Q AFOSI/IVOS; File	ATTACHMENTS	FILE STAMP AND/OR OTHER 8017D93-0/29-1
LINE GRADE TITLE SIGNATURE THOMAS A. CSEH, Major, USAF Commander Asst Investigative Detachment	FOR OFFICIAL USE ONLY	

allegedly showing high periods of electrical magnetism being emitted from Manzano/Coyote Canyon area. Dr. BENNEWITZ also produced several photographs of flying objects taken over the general Albuquerque area. He has several pieces of electronic surveillance equipment pointed at Manzano and is attempting to record high frequency electrical beam pulses. Dr. BENNEWITZ claims these Aerial Objects produce these pulses.

3. After analyzing the data collected by Dr. BENNEWITZ, Mr MILLER related the evidence clearly shows that some type of unidentified aerial objects were caught on film; however, no conclusions could be made whether these objects pose a threat to Manzano/Coyote Canyon areas. Mr MILLER felt the electronical recording tapes were inconclusive and could have been gathered from several conventional sources. No sightings, other than these, have been reported in the area.

4. Mr MILLER has contacted FTD personnel at W-P AFB, OH, who expressed an interest and are scheduled to inspect Dr. BENNEWITZ' data.

5. Request a DCII check be made on Dr BENNEWITZ.

6. This is responsive to HQ CR 44.

7. Command was briefed but did not request an investigation at this time.

REMARKS

1. On 10 Nov 80, a meeting took place in 1606 ABW/CC Conference Room attended by the following individuals: BGen WILLIAM BROOKSHER, AFOSP/CC, COL JACK W. SHEPPARD, 1606 ABW/CC, COL THOMAS SIMMONS, 1606 ABW/CV, COL CRES BACA, 1606 SPQp/CC, COL FRANK M. HUEY, AFOSI Dist 17/CC, LTC JOE R. LAMPORT, 1606 ABW/SJ, MAJ THOMAS A. CSEH, AFOSI Det 1700/CC, Dr. LEHMAN, Director, AFWL, ED BREEN, AFWL Instrumentations Specialist and Dr. PAUL F. BENNEWITZ, President Thunder Scientific Laboratory, Albuquerque. Dr. BENNEWITZ presented film and photographs of alleged unidentified Aerial Objects photographed over KAFB, NM during the last 15 months. Dr. BENNEWITZ also related he had documented proof that he was in contact with the aliens flying the objects. At the conclusion of the presentation, Dr. BENNEWITZ expressed an interest in obtaining financial assistance from the USAF in furthering his investigation regarding these objects. DR. LEHMAN advised DR. BENNEWITZ to request a USAF grant for research. DR. LEHMAN advised DR. BENNEWITZ he would assist him in filling out the proper documents.

2. On 17 Nov 80, SA RICHARD C. DOTY, advised DR. BENNEWITZ that AFOSI would not become involved in the investigation of these objects. DR. BENNEWITZ was advised

COPIES TO Dist 17/IVO, File	ATTACHMENTS	FILE STAMP AND/OR OTHER

that AFOST was not in a position to evaluate the information and photographs he has collected, to date or technically investigate such matters.

3. On 26 Nov 80, SA DOTY received a phone call from an individual who identified himself as U.S. Senator HARRISON SCHMIDT, of New Mexico. SEN SCHMIDT inquired about AFOST's role in investigating the aerial phenomena reported by Dr. BENNEWITZ. SA DOTY advised SEN SCHMIDT that AFOST was not investigating the phenomena. SA DOTY then politely referred SEN SCHMIDT to AFOST Dist 17/CC. SEN SCHMIDT declined to speak with 17/CC and informed SA DOTY he would request that SAE look into the matter and determine what USAF agency should investigate the phenomena.

4. It should be noted that DR. BENNEWITZ has had a number of conversations with SEN SCHMIDT during the last few months regarding BENNEWITZ'S private research. SEN SCHMIDT has made telephone calls to DAVID BROWER, AFOST/CC regarding the matter since Security Police are responsible for the security of Manzano Storage Area.

OTHER/REMARKS					
On 30 Jul 81, the 1606th ABW IG contacted DO 17/BID and advised that Senator PETER DOMENICI desired to talk to SA RICK DOTY regarding the matter involving BENNEWITZ. After checking with Col HARVELL, Acting AFOSI/CC, it was agreed SA DOTY and DO 17/CC would meet with Senator DOMENICI. Senator DOMENICI was present in the IG's Office but departed immediately to meet with BENNEWITZ. A subsequent check with Mr. TIJEROS, Senator DOMENICI's Aide, in an effort to determine the Senator's specific questions, determined his sole interest was to know whether AFOSI had conducted a formal investigation of SUBJECT. Mr. TIJEROS was informed that no formal investigation of BENNEWITZ was conducted by AFOSI. Mr. TIJEROS stated that he assumed if any information were available, and was to be requested from AFOSI, it would have to be requested from our Headquarters. He was provided Col BEYEA's name and the Bolling AFB address of our HQ AFOSI in event he desired any further information. Mr. TIJEROS thanked us and indicated no further inquiries from the Senator regarding this matter are anticipated.

HEADQUARTERS FOURTH ARMY
Fort Sam Houston, Texas

452.1 AKADB

/dcb
13 January 1949

SUBJECT: Unconventional Aircraft (Control No. A-1917).

TO : Director of Intelligence, GSUSA
Washington 25, D. C.

1. The inclosed Summary of Information, subject, "Unconventional Aircraft (Control No. A-1917," dated 13 Jan 49, is forwarded for your information and any action deemed necessary.

2. Agencies in New Mexico are greatly concerned over these phenomena. They are of the opinion that some foreign power is making "sensing shots" with some super-stratosphere devise designed to be self-disintegrating. They also believe that when the devise is perfected for accuracy, the disintegrating factor will be eliminated in favor of a warhead.

3. Another theory advanced as possibly acceptable lies in the belief that the phenomena are the result of radiological warfare experiments by a foreign power, further, that the rays may be lethal or might be attributed to the cause of some of the plane crashes that have occurred recently.

4. Still another belief that is advanced is that, it is highly probable that the United States may be carrying on some top-secret experiments.

5. It is felt that these incidents are of such great importance, especially as they are occurring in the vicinity of sensitive installations, that a scientific board be sent to this locality to study the situation with a view of arriving at a solution of this extraordinary phenomena with the least practicable delay.

6. It is further requested that this Headquarters be informed of action taken on this and a previous report in order that reporting agencies may be advised.

AFTERWORD

Until the publication of this report, one of the most common misperceptions about the so-called MJ-12 documents was that they stood alone-- a few pages of questionable authenticity dropped anonymously and quite literally out of the blue into the hands of a couple of gullible individuals who were thoroughly taken-in by the event. Hopefully now that the facts have been presented in their proper context, prevailing myths will be dispelled and others will begin to understand and appreciate the incredibly complex web of people and events which are inextricably entwined in whatever all of this is all about. It is not a simple matter by any means. Rather it is a chain of bizarre, carefully manipulated, incredibly confusing events which began, as near as we can tell, more than fifteen years ago with a man named Robert Emenegger and have continued to this very day. It is a trail of people, and documents, and intrigue, and strange, sometimes almost supernatural occurrences which, when woven together, can be interpreted as prima facie evidence for the hypothesis that there is an "other" presence here on planet Earth which is actively and systematically manipulating our awareness of it.

Whatever is going on, it seems clear that certain elements within our government know enough about it to cause them to play their own kinds of games-- games which are either designed to condition the public in preparation for an ultimate day of reckoning when the truth can finally be told, or to bury public interest in UFOs by confounding the curious with an array of increasingly outrageous and incredible tales which sap their strength, drain their resources and strain their reputations to the point where they will either stop digging or dig only in carefully fenced-off, perfectly harmless places.

Even with the extensive work we have already done, much of it still unpublished, we still cannot say with any degree of certainty where this path will lead us. What we can say, however, is that no one in the public sector outside of our own little group appears to be on it. We can also say, simply as a matter of fact and with no offense intended, that the so-called UFO research community in the United States contains a lot of competent, well-meaning individuals who have become so enmeshed in their own perceptions of reality that they are quite literally both blind and immune to the larger picture around them. In addition, there are also a number of incompetent, egotistical, undereducated, underqualified, illogical, emotionally misguided dolts (some of whom, unfortunately, hold leadership positions), whose presence and participation is directly responsible for the belief held by many influential outsiders in academic, political and media circles to the effect that American UFOlogy is an on-going three ring circus which is seldom if ever to be taken seriously.

UFOs are not just lights in the sky to be chased by fun-seeking "investigators" bent upon discovering evidence of other-worldly visitation. Neither are we dealing with "take-me-to-your-leader"

type extraterrestrials who have come to bestow upon us all of the secrets of their ultra-advanced civilization. UFOs are not a simple phenomenon to be explained away in simplistic terms. Rather we are dealing with something which has been a silent partner to human civilization for a very long time, and which will continue in that role until we, as conscious beings, ultimately "discover" them and are able to say "thank you-- we now understand who you are and what your purpose is." Whether that day lies just around the corner or many years in the future, we cannot say. We can only hope that our continuing efforts will somehow hasten its coming.

Compiling the research and writing this report has not been an easy task. Although questioned documents pertaining to alleged UFO events have surfaced in the past, never before has anyone subjected any of them to such a high degree of scrutiny. Prior to this report, no UFO researcher could demonstrate any amount of expertise in this very specialized area. It fell to us therefore to learn as we went-- a difficult and time-consuming process, but valuable since the knowledge gained will undoubtedly prove useful in future situations. Our work will continue, and additional material will be published from time to time as circumstances warrant. Meanwhile, anyone wishing to write to us may do so at the following address:

William L. Moore and/or Jaime H. Shandera
