27 October, 1981

U.S. Army Major General Robert L. Schweitzer
Former Chief Military Adviser of the White House
The Pentagon,
Washington D.C., 20301

My Dear General:

I was flabbergasted that you as a Chief Military Adviser of the White House and the National Security Council was dismissed on account of your statement that "the USSR had achieved a military superiority" and "produced a drift toward war".

This matter of fact is more as ridiculous, because they are well known from the Joint Chiefs of Staff down to the schoolkids, but no one had lost his credentials yet.

As a military scientific research analyst (former major of the Royal Hungarian General Staff) I believe we must shake hands, because in February 1966, the L.B. Johnson administration ordered my immediate dismissal from the United Nations Secretariat's Staff (Office of Public Information) for similar reason. My committed offense was that then on the basis of my 14 years of military (strategical, tactical), scientific and technological research I encouraged to refer my Secretary General U Thant, that the militarily verified (USA, USSR, etc.) extra-terrestrial (UFO) forces earthbound operation is a global security problem, and should keep them under the U.N. control, stop any armed confrontation against them, and seek contact and communication with the exploring forces.

X → Our enclosed Memorandum addressed to the President on January 28, 1981, has been silenced up to day! Might it be well known by you...

I feel the honor to communicate this affair with you. Please accept my sincere respect

Cordially yours,

Colman S. VonKeviczky, MMSE
(Maj.Ret.) Dir of ICUFON Inc.
