Arthur Bray
1187 Agincourt Road
Ottawa, Ontario,
K2C 2H8, CANADA.

Dear Mr. Bray:

I briefly met you at the 1982 MUFON Symposium/UFO Summit Conference and must state that I was impressed with your lecture "Professionalism in Ufology."

The reason behind this letter, however, is to invite you to Guest Speak at our up-coming UFO Symposium in Albany, New York on August 12, 13 & 14, 1983. It was suggested by Major (Ret.) Colman Von Kevicsky, our photographic consultant, that you be included in our guest speaker program. Colman truly enjoyed his stay at your home while in Canada and will also be lecturing at our symposium and felt that your contribution to our symposium would be both educational and entertaining.

Enclosed, for your inspection and convenience, are three past issues of our publication and literature pertaining to an invitation to guest speak for us. We certainly hope you accept our invitation since many other international personalities shall be present whereby we, the SBI, shall present them with awards for their contribution and dedication in UFO research.

It would be an honor and pleasure to include you in these honor ceremonies as well. Our program committee, and I, hopes that you will be able to accept, as we are all anxious to hear your documented Canadian cases and/or solutions to current problems in the field of ufology.

Very truly yours,

Pete Mazzola
Pete Mazzola,
International Director.
