

1187 Agincourt Road,
Ottawa 5, Ontario.

July 15, 1968.

Dr. Peter M. Millman,
4 Windsor Ave.,
Ottawa 1.

Dear Dr. Millman:

In addition to my membership in CAPRO and NICAP, I am a member of what remains of the local UFO Club founded by W.B. Smith. This club was still functioning as a club until a few months ago, when it was disbanded. A handful of us who were reluctant to discontinue this activity entirely continue getting together on a monthly basis in a very informal "non-club" fashion, simply in the form of a discussion group. We meet in the homes of the group members, on a rotation basis. All members are married couples.

Each month, we plan to discuss a particular aspect of the UFO phenomena, or some specific item of interest of recent development in the field. In August, it is the turn of my wife and myself to host this small group and I wonder if you might be available the evening of Monday August 12th, to talk with us, informally, about what needs to be done by governmental bodies around the world in solving the UFO enigma.

If you are able to join us, we will be very pleased if Mrs. Millman could accompany you. You could let me know of your availability by telephone, at 722-1935.

We do hope that you will be able to join us for the evening.

While I am at my typewriter, I want to also take this opportunity to thank you for sending the copy of the Project Magnet Report which I received in the mail this morning. It was indeed kind of you.

Yours very sincerely,

Arthur Bray
