Dear Mrs. Swan.

I have written to you to hopefully obtain some material from you related to your contacts with the "good ones" or as the Canadians described "The Boys Topside."

I am an investigator of the work of the late Wilbert B. Smith who took a strong interest in the messages you were receiving. I have talked to Mrs. Smith, Art Bridge, Buck Buchanan and others who accompanied Mrs. Smith on his trips to see you. However because they were all government employees they were restricted in what they were able to say. ^{investigator - I}

Once I became interested in your case I was able to obtain ^{ask you} statements and quotes about your contacts from Mr. & Mrs. Knowles, and Senator Margaret Chase Smith. ^{why?} she refused. ^{I never kept}

I realize that you sought no publicity of your ^{any of Wilb's} contacts, but I hope you can provide me some information ^{interests} on the history of your contacts. I am very interested! ^{I had to destroy}

The areas that most interest me are the following. ^{all contacts to me.}

① Contacts with AFFA which Mr. Smith talked about a great deal. Did these end with Mr. Smith's untimely death? Is AFFA still around? ^{I don't know.}

② The difference between the "good ones" and the "oil ones"? Are there differences in the way they look? ^(Good ones work for God - would one work for the Devil.)

③ I understand the gov't took an interest in your contacts. Is this true? ^(yes & no - two many of my friends think they more than I was - so the gov. & I made a vow to keep still)

I have worked on Mr. Smith's work for many years and have heard your name mentioned in many conversations. ^{good friends.}

Therefore I hope you will take some time to tell me your side of the story.

I realize that there are some aspects you might ~~wish~~ wish not to talk about, but I do hope you will tell me what you can. I am very interested in the messages you received, and have not been able to obtain enough talking to others. It is for this reason I have written you.

Enclosed find \$1.00 to cover your postage.

Best Wishes

David Brown

Sorry you are way back on this - messages I burned because there were people seemed that I was just someone for entertainments etc. & calling me to see their friends. Affa did not ask any of them - they were always asking me to ask him. It is working for God not my so called friends that took a lot of his time.

Dear Mr. Cameron

I don't have any recollection of meeting you, however we often thought along some of his friends without ever asking me.

I shall answer your questions along on your questions.

One, one, from me - do not use any material for writing a book, that is not allowed.

I met Affa in 1953 - in person.

That was 35 years ago,

I am 35 years older.

How long do you remember some of the silly questions.

Must must have web's questions & even she may still have them - it's O.K. if she cares.

April 18, 88

Dear Mrs. Swan.

It was one of the happiest days of my life when I found your letter in my mailbox.

I never met Wilbert Smith. I was only 8 years old when he died. I followed his work and talked to Mrs. Smith in 1978. I became very interested in Wilb's work with AFFA which led to me writing you.

The things you told me were the same as I had heard from Mrs. Smith and the others, except one. You stated you had me AFFA in power. This I did not know.

I will tell you why I am so interested.

Enclosed you will find a report written recently about the activities of the "greys." You can see they are up to no good.

I know AFFA and the others you and Mr. Smith contacted were not grey, but I do not know exactly what they were. What did AFFA look like?

Were you the only one to see him?

A woman from Colorado working on the problem of what the greys are doing asked me "What happened to the blonds and the human type aliens?" They don't seem to be around anymore. This woman told me she had heard that the greys had taken over the blonds.

You have had many years experience in this

area. Have the evil ones taken over the good ones?

Do you still have contact with the good ones?

Finally I have been told you taught a Navy Intelligence man how to contact AFSA and that in 1979 he wrote stating it had ruined his life. Is this true?

Why must only certain people make contact?

I hope you will be able to bring some "light" to what seems like a dark period. You are the only one I can find who was in contact with the "good ones."

Thank You for your help.
I appreciate it!

Grant Cameron.
