Mr. Robert Morton, Editor-in-Chief
Mr. Hal McKenzie, Asst. Editor-in-Chief
The News World
401 Fifth Avenue
New York, New York 10016

Dear Mr. Morton and Mr. McKenzie:

Sincere congratulations and encouragement for your very excellent UFO newspaper articles in the News World by Major(ret.) Colman S. VonKeviczky, Director of the Intercontinental UFO Galactic Spacecraft Research and Analytic Network.

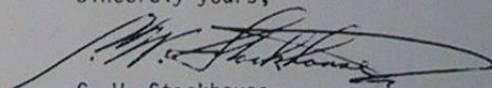

Major VonKeviczky is the only UFO military research analyst in the U.S.A. and indeed in the world who has proposed a definitive plan to both the United Nations and all of its member world governments and to the House of Lords in England for the immediate establishment of a World Authority for Spatial Affairs. In its basic essence it constitutes the ONLY logical, legal, scientific and military solution to the complex humanitarian security of all the nations of the world.

It is pathetic to observe that most all of the so called UFO research organizations only print reported UFO's sent in to them by independent observers and to make money from a membership list. UFO sighting reports will NEVER solve anything.

Since 1968 I have been the Assistant Director to Major VonKeviczky of ICUFON and have specialized in the field of aeronautics, astronautics and astronomy. I assisted in the technical, military and scientific presentation of two massive UFO documentation reports to the United Nations. During World War II I held a very responsible administrative position in aviation in the production of combat aircraft for both the U.S. Air Force and Navy Air Force.

It is to be hoped that your comprehensive UFO news articles will both enlighten and educate your readership to the true situation currently existing in UFO research activity and subsequently to apply compelling political pressure on the appropriate governmental authorities for decisive action and a solution. There has been too many UFO smokescreens, landmines, coverups, blind alleys and dead ends for more than three decades. Time is fast running out on this very urgent international issue. Best wishes, always.

Sincerely yours,

C. W. Stackhouse
