

I have enclosed for your information a resume of my experience and qualifications in administration, management, etc. You will see from this resume, that together with my long experience and background in the UFO field, I am well-qualified to administer an organization such as you proposed.

If this should be an international or global organization (in my opinion, it should be), is there any reason why its location (or Headquarters) need necessarily be in the U.S.A.? I am suggesting that perhaps it could be in Canada. There could be advantages to such a location.

I will be very interested in hearing from you regarding the status of formation of such an association, and whether there is a possibility of a place for me within it.

Yours truly,

Arthur Bray
