

UFORA
214 S. ARCH
ALLIANCE, OHIO 44601

January 1, 1971

Dear Mrs. Halford-Watkins:

Thank you very much for the Christmas card and the Holiday greetings. Enclosed you will find a copy of the results gleaned from the Chemistry Lab, that was handled by our Chemistry Advisor, Mr. Mark D. Scaia. This report from the Chem Lab. constitutes the "First Phase" of the analyses. Our advisors and their associates in Metallurgy will conduct the "Second Phase". When this phase is completed you will receive the complete results accompanied by photomicrographs. We ask you to bear with us, we will try to get the results to you as soon as possible.

I still must ask you to keep the location of our testing facility, the B&W Research Center, confidential so for the time being it can be mentioned that UFORA is conducting the analysis.

Thank you for your patience and understanding and wishing you and yours a wonderful New Year.

Sincerely yours,

Paul J. Rozick
