Dear, Mr. Arther Bray,

I'm sorry to send this letter all at once, but I want to ask you for some matters of your book "THE UFO CONNECTION". In chapter 7, it is written that Project Magnet was a official project of Canadian government. However, (p.175) according to E.J. Ruppelt's book "Report on U.F.O.s", "Magnet was a quasi-official project". Thus if you make sure this accounts, could you tell me about it? Furthermore, Mr. Keith Litcraft, Belgium GAP, wrote in his treatise that project Magnet was founded forty million dollars by Canadian government (?). Do you know this story?

At present, I'm writing an article titled "The study of Project Magnet" for Japanese Journal "UFO and Space", if possible, could you make me a copy of your data. I'll, of course, pay a price for it.

I'm looking forward from your reply, soon.

Yours sincerely,
TAKASHI ISHII
