

Slide OFF - The situation in Canada is the same
as in the USA

SHOW + QUOTE - Affidavit re Dr. Rickard ("Aliens a threat")

3. UFOs as an Intelligence Problem

In addition to air force investigations, the intelligence community is also deeply involved.

Unfortunately, in Canada, we do not yet have a FOI Act. Our American friends are ahead of us as they now have one and a great deal of information (thousands of documents - a few of which I have shown you already) have been released as a direct result of court action. But don't be misled into believing that all UFO documents have been released. Many are being withheld from public release, so much secrecy still exists.
