The Military UFO files

The final source that Bray was able to tap for UFO information (after a nineteen-month wait) consisted of files held for DND at the **Public Archives Records Centre** in Ottawa, at Tunney's Pasture. The DND department to contact is the **Directorate of History**. The relevant file numbers are as follows:

- 1) 940-105-3 Box 829628 (Air Force, 2 volumes, classified Secret)
- 2) 940-150 - Box 829624 (Air Force, Unclassified)
- 3) 940-5 - Box 829627 (Air Force, classified Confidential)
- 4) 9150-4 (1963TS) (Army, classified Secret)

This last Army file, which Bray was told in writing existed, has (according to later correspondence) now been destroyed.

These files date from July 1947 to August 1961. They are "sanitized"; that is, names of civilian reporters have been blanked out and photocopies made of the original reports.
