

Because the White House and the National Security Council proved ineffective to launch the solution of the UFO problem, we were forced to turn in 1985 our MEMO over the Capitol Hill (U.S. Congress). On April 25th we never dreamed that seven months before the Geneva Summit we placed on the floor of the 98. Congress the United States and the Soviet Union covert preparation for a space war. Our memorandum sounded: *Armed Confrontation to Alien Forces of Galactic Origin, Which Jeopardize the National/International Peace and Security Being Raised a Potential Threat to the Nations.*

At both Houses' defense appropriation subcommittees, the Urgent Priority was requested on their agenda.

Reaction to the memorandum

The Presiding Officer of the Senate, the Speaker of the House, Majority and Minority Leaders, and Members of the Committees - 21 Senators and 39 Congressmen, up to this day never appropriated on the agenda of the Congress the National Security problem of UFOs. Really suspicious is, that out of the 60 Congressmen 57 refused to mail even the polite customary confirmation of the Memo. Its reason logically seemed, not to place in ICUFON's hand any written evidence of their acceptance or knowledge of the damning JFO documentation and its whereabouts.

The Secret beyond the silenced Congress ... namely: Six months earlier, On October 30, 1984, the 98th Congress had approved a *Joint Resolution Relating to Cooperative East-West Ventures in Space*, for peaceful manned and unmanned exploration of the Solar System, space medicine, biology etc. This desultory resolution, in lack of any pre-investigation, neglected to mention that

● According to documentation from the Pentagon and various Security Agencies, the USA and the USSR are

since 1952 in *undeclared warfare against extraterrestrial (UFO) Forces*;

● Paragraph 2 warns that, «the prospect of an arms race in space between the United States and the Soviet Union has aroused worldwide concern expressed publicly by the governments of many countries.» The last paragraph sounds:

● Advancing human civilization by the colonization of space with military strength, might turn space into a «Battleground».

In 1984 this congressional public law empowered President Reagan to renew the United States' and Soviet Union's agreement «on Space Cooperation for Peaceful Purposes».

Only 11 months past, when in November 1985, President Reagan renewed «peace» agreement with General Secretary Mikhail Gorbachev in Geneva, declared the following:

«If the Earth faced an invasion by extraterrestrials, the United States and the Soviet Union would join forces to repel such an invasion.»

President Reagan stated upon the agreement: «... I do not suppose we can wait for some alien race to come down and threaten us. But I think that between us we can bring about that realization.» (Fallston, MD., High School, Dec. 4, 1985).

Should we refer to the Capitol Hill «East-West ventures in space» agreement a Great Schoolmaster, - General Secretary Mikhail Gorbachev to teach «the Congressional UFOLOGY»!

1988 - «For Peace on the Earth, Prepare for «Star War»

... sounds as a global alert the «Si vis pacem para bellum», the Roman War-leaders proverb in the mighty powers present day interpretation. Namely

Parallel with the Soviet Union the President of the United States for three times warned the entire world already

the «alien (UFO) forces» militarily verified potential threat. First on December 4, 1985, at the Fallston MD High School; then on September 17, 1987, at the opening of the Forty-Second Session of the United Nations General Assembly; and recently on May 4th, 1988, at the National Strategy Forum in Chicago. III. He disclosed again as President, and the highest commander of the US forces:

«... if all of us in the world discovered that we were threatened by an outer - a power from outer space - from another planet, wouldn't we all of a sudden find that we didn't have any differences between us at all, we were all human beings, citizens of the world, and wouldn't we come together to fight that particular threat.»

I am asking this UFO Congress, should we accept with closed eyes, and deaf ears the superpowers' warnings and readiness for the provoked cataclysmic planetary nuclear war? ... and be a dead hero for it?

Or, should we trust instead, in the messages of the «invisible space brothers» about the evacuation of the Earth to another planet? That is of over 4 billion people! Including the bellicose governments of the United States and the Soviet Union?

I believe, my Ladies and Gentlemen, Friends in UFO Research, that we must stay here on our Earth and fulfill our duty - to prevent humanity's nuclear suicide!

I am firmly believing we must demand, first of all, for the benefit of the entire world to clear up all the Nations' relation to those «stars» from where the UFOs alleged potential threat originate!

Secondly, we must force with full extent the United Nations and the Governments to solve the UFOs critical problem, before it is too late ...

3. We demand the international control of the Strategic Defense Initiative's space arms, deployed against the UFO

forces - initiated by the Taketori Monogatari of Japan: *Never again Hiroshima, never again Nagasaki, and never a space war!*

4. We must demand, and call immediately for an international security congress with the participation of:

a. Military and Security forces, for the international security.

b. Outer Space exploration and their scientists, in harmony with the National Academy of Sciences' UFO research departments.

c. Noted UFO research pioneers of the nations, representing their populace.

From World War II on, the Mighty Powers and their allies have ventured billions of dollars in more than 100 war-skirmishes, and in the preparation of the «Star War». It is a shame that they never provided a single penny for the Star Peace, and the Security of Mankind!

For these demands a courageous action started at the United Nations!

On May 1988, reasoned the endangered international security, - by 350 classic declassified military evidences, we requested the United Nations and the Member Nations to place the alien UFO forces created crucial problem's solution on the priority agenda of the General Assembly, and force the Star War preparation to turn into a Star Peace.

The memorandum demanded: «... if necessary

● Immediate Cease-fire on UFOs, and a stop to any hostile confrontation.

● To seek official communication with the exploring alien forces, which are as indicated peaceful envoys of Galactic Civilizations, - but welcomed over four decades on our Earth by gun and missile fire.

● The frontiers of this new way of research are among us:
