18 June, 1975

Dr. Frank Maine, M.P.,
House of Commons,
Ottawa.

Dear Dr. Maine:

A copy of an article in the Hamilton Spectator of 27 March 1975 has just been drawn to my attention. This article stresses your keen interest in the subject of Unidentified Flying Objects. The comments attributed to you concerning the views of and possible investigations by the Canadian Government are most interesting.

In view of your interest in this matter, I wondered if you are familiar with past efforts to obtain information from the government, and to persuade the government to establish a proper scientific investigation.

I have personally been making strong efforts in these areas for quite a number of years., hence I thought that a perusal of the literature would be of assistance to you, should you not already be familiar with it. In this respect I wish to draw your attention to the following:

Bray, Arthur; Science, the Public and the UFO, Bray Book Service, Ottawa, 1967. (A copy is held in the Library of Parliament).

Bray, Arthur; Science, Society and the UFO, Proceedings of the Senate Committee on Science Policy, 1969, No. 80, Brief No. 212.

Bray, Arthur; Government Cover-up Exposed, Canadian UFO Report, vol 3, no 2, 1974, pp 20-22 (copy attached).
