Ottawa 5, Ontario
CANADA

Dear Mr. Bray:

This is in answer to your letter of April 17. I much appreciate your offer of assistance in the "association of interested scientists" but unfortunately little has developed in that direction as yet. Funds, of course, are the problem as you suggested. On the other hand, the whole idea might be given a shot in the arm at any time in which case I most certainly will get in touch with you. I assume you are in frequent contact with Mr. Brian Cannon in Winnipeg and also with Mr. W.K. Allan in Calgary.

Yours sincerely,

J. Allen Hynek
Director
