

N.R.C. Files (Non-Meteorite Sightings)

(data compiled during visit on 31/8/76)
(+ rechecked on 15/10/76)

General Files

Two volumes of general correspondence exist, identified as "Correspondence A-L" and "Correspondence M-Z".

They contain general inquiries from the public as well as interdepartmental correspondence. There was nothing new or particularly interesting in them.

There are current files and start about 1965. They are not in chronological order, but alphabetical, so it is difficult to determine precise time period involved.

Details of the sighting report files are attached.

All files are now located in Room 2026, 100 Sussex Drive. The current clerk for files is Annie Claude, phone # 996-9345.

Dr. MacKenzie, Dr. Macintosh & Dr. Millman are all also reached through 996-9345, where a secretary switches calls to specific individuals.
