

e. (U) On 30 October the Maine Army National Guard helicopter was replaced by a USAF helicopter and crews from Plattsburgh AFB. We continued our nightly alert with this vehicle.

f. (U) During the night of 31 October, several suspected helicopter sightings were made on targets at distances varying from directly over the base to 10NM NE. Reported altitude varied from 300 ft to 5000 ft. Some of the visual sightings were confirmed by RAPCON radar. Our standby helicopter was launched without successful intercept. NORAD fighter support was not thought to be tactically appropriate on this occasion and was not requested.

g. (U) On 1 November night viewing goggles were requested for the airborne observers. They were delivered from Eglin AFB on the same date.

h. (U) Sundown to sunup helicopter, "Questor" and searchlight alert was maintained thru 8 November; however, the intruder did not reappear and it did not appear that further activity could be expected.
