In a message dated 1/7/04 9:46:16 PM, presidentialufo@presidency.com writes:

I believe that
President Carter was informed in the late 1970s, but am not sure about other
presidents.

He was for sure. Bush Sr. was as DirCia and later as VP. Don't know after that.

Hello Grant,

Nice to know the interview with Laura Lee is still available. Do you know if she still has a program?

Your query about the president of the USA being briefed on psi for the government:

I know that various congressional staffers had been briefed. I believe that President Carter was informed in the late 1970s, but am not sure about other presidents. However it is likely that many of the presidents since Carter were knowledgeable of the psi program, even if they were not given formal briefings.

Thanks for the query.

Regards,

>

> Was the President briefed on the psi program developments?

> I am interested because I run the Presidents UFO website and I am always

asked if the President knows about UFOs. Psi seems to be a similar

political
hot potato.
