Dr. J. Allen Hynek,
Director,
Center for UFO Studies,
1609 Sherman Ave.,
Suite 207,
Evanston, Ill., 60201,
U. S. A.

Dear Allen:

The books by Trevor James Constable, They Live in the Sky, (New Age Publishing Co., 1958) and Cosmic Pulse of Life (Merlin Press, 1976) are of particular interest to me in that the author claims to have photographed UFOs in the infrared range of the electromagnetic spectrum.

To my knowledge (I have seen nothing else in the literature) no other researcher has attempted to duplicate or verify Constable's work.

It seems to me that here is a challenging area for science to either confirm or refute a very interesting claim. Should Constable's claims and photos be validated, it will mean a major breakthrough in Ufology.

I strongly recommend that the Center for UFO Studies arrange to repeat Constable's experiments.

Your comments will be greatly appreciated.

Kind regards,

Arthur Bray.
