Chicago, Ill. 60659

Dear Sir,

I would like to visit your library and files to look up a couple of things. I am interested in the NICAP files and a couple other things. I am working on a manuscript on the late Wilbert B. Smith head of the Canadian government Project Magnet.

I will be going through Chicago in September, and would like to find out what time your files are open for a quick review. I will plan my trip accordingly.

Please let me know what the situation is.

Thank-you for help.

Sincerely

Grant Cameron

Dear Mr. Cameron:

Regarding your request to visit the CUFOS office to look at our files, we'd be delighted to have you visit. The best time for us is typically the weekend, since we all have regular jobs. Just about any weekend is okay in September except the last one, so let me know when you'd like to visit. If necessary, you could use the archives on both Saturday and Sunday.

You've mentioned that you are interested in Wilbert Smith, and we can gather together the material we have on him and Project Magnet for your visit. Let us know what else specifically you'd like to review so we can make sure it's available before you arrive.

In case you use email, you can contact me at Infocenter@cufos.org.

I look forward to your visit.

I heard from the Chicago library system that you have a very good collection of old Chicago phonebooks.
I am a Canadian researcher writing a manuscript that involves in part a citizen of Chicago.
I will be in Chicago next Monday which is a holiday and you will be closed.

Chicago Report

George
Frank Reid
Mark

Frank told me he knew the Maieros and there was no chance it was a hoax. He heard the tape (1956) Otto worked with them.

Mark idea Carter held back comment because of the wacko elements in the UFO community

Frank did not know about Otto. He was contacted but a level headed one.

still need the CIA memo. - not at Carter - write Clark.
