Dear Mimi:

Thank you for your letter of February 9th. It was a pleasure to hear from you.

I have concluded, after study of all available facts, that the Project Magnet Report was submitted in 1953. This is the date I am using in the book which I have in preparation, which will devote a full chapter to Projects Magnet and Second Storey, by the time I have it finished. Strange, the way the Center received its copy of the report. I suspect it may have been sent by Peter Millman, but that is only an "educated guess".

While I am writing, may I take this opportunity to inquire if Allen ever received my letter of January 31, 1977 concerning analysis of Les Ecureuils Iron Mass? I eventually wrote him again on May 13, 1977, sending along a copy of my original letter, but still have not had a reply. Would you be kind enough to check on this matter for me please?

I send my thanks in advance for the copy of "The Hynek UFO Report" which you said you are sending to me. As I already possess a copy and have read it thoroughly, I will pass it on to someone else who will appreciate getting a copy.

I thought the book was excellent. Please also pass that along to Allen.

Yours sincerely,

Arthur Bray.
