

It seems to me that John Magor is more interested in publishing a magazine then presenting a scientific journal. I don't mean to discredit the publication, I feel it is the best published in Canada however, I would like to see it presented more scientifically.

As for the publication published by UFO CANADA - we no longer publish monthly but rather on a quarterly schedule. This was necessary so that more time could be spent on investigation and proper publication. In the past, I was involved in publishing a magazine rather than working on other important projects. I am enclosing all UFO CANADA back issues plus the current Quarterly Report (which is sold when available) and the Information Guide. In the near future, we will be publishing special papers on various areas of the UFO phenomenon - individual Canadian UFO reports - Studies, etc., ~~XXXXXXXXXXXX~~

I look forward to hearing from you again.

Sincerely

Howard Contovnick

I could go on for pages explaining what needs or what doesn't need to be done in regard to the subject of UFOs. Even the Canadian UFO report does not publish enough Canadian content and I don't think there's a substitute or information.
