Mrs. Carol Halford-Watkins
Club Secretary
Ottawa New Sciences Club
95 Centre Street
Aylmer East, Quebec, Canada

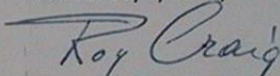

Dear Mrs. Halford-Watkins:

Your letter to Dr. Condon, written on June 21, 1967, recently came to my attention. The piece of metallic material you mentioned, since it cannot be related directly to an unidentified flying object, would not seem of sufficient value to our study to warrant further analysis by us.

I am strongly interested in learning more about "Project Magnet", and in obtaining copies of official reports from this project. I did request such information some time ago from a source I believed could supply it, but the desired reports were not acquired by us. If you could tell me to whom I should address a request for copies of such reports, I should be most appreciative.

We appreciate your sending the previous information to us, and I shall anticipate hearing from you again in the near future.

Sincerely yours,

Dr. Roy Craig
Research Associate
UFO Project
