Subject; UFO Problem Must be Solved
Before It Is Too Late...

Your Excellency - Esteemed Madame;

On January 29, 1980, before the House of Lords' All Party UFO Study Group - chaired by Earl of Clancarty and Lord Kimberley - my address referred to Her Majesty's government ICUFON's World Authority for Spatial Affairs (WASA) Project as official solution of the UFOs created international security problem. (Encl.# 1.) On the strength of the presented declassified military evidences, I suggested that all the nations should lift the veil of military secrecy ONLY on the UFO level, and within an International Congress by assembling their militarily analysed facts, it will be realized at once the existing problem, which points towards its solution. I concluded that each nation should be represented by the military- scientific- and non-governmental UFO research. Where the "*WE ARE*" goes without saying that from 1978 the United Kingdom of Great Britain with the United States was also ready to drive a war against the "*Aliens from other solar systems*"!

UNDECLARED WAR

The declassified military documents of the mighty powers (Consult the Presidential Memo's enclosures, Encl.# 3.) are indication clear evidences that over forty years our Earth is in "undeclared warfare" against forces of galactic
