Dear Bill:

Thank you for yours of August 31. Sorry I have been so slow in answering but I have been travelling a very great deal recently so it has been difficult to reply promptly.

I am now "retired" from the Navy and am employed with the Canada Safety Council as Manager, Occupational Safety Section. It is in this capacity which I am travelling so much. Just returned from Chicago where I had an interesting chat with Dr. Allen Hynek. His book will be out next spring. There has been some delay.

Thank you very much for settling the account for the copies of my book. I do appreciate it. Also, thanks for the order for six additional copies. These were mailed to you some time ago, so you may have them by the time you receive this letter.

In addition, thank you for recommending my book to Mr. Huyser of Huyser Bookshop in Wellington, New Zealand. He wrote to me and ordered twenty copies, which will be shipped tomorrow. You really have been very kind and helpful to me, Bill, and I do appreciate it very much.

It was sad about Jim McDonald. I never had the pleasure of meeting him. We ufologists have lost a real leader in the field even though he came into this business very recently, relatively speaking.

I recently met with Bill Allen in Calgary, Brian Cannon in Winnipeg and John Magor of Duncan, all of whom I believe you know through correspondence etc. John Magor's magazine "Canadian UFO Report" is now selling in the USA which is a bit of a breakthrough.

I have ordered copies of Cathie's book (his new one) and look forward to receiving them soon. Best regards for now.

Sincerely,

Arthur Bray
