10th June 1970.

Mr. Arthur Bray  
Bray Book Service,  
PO Box 5051, Station F.  
Ottawa, Ontario, Canada.

Dear Arthur,

Regret not having answered your letter of 23rd April before, but was twice stricken down for two weeks each with gastric trouble, thanks God better now.

Your five copies came to-day safely, that was another reason in not answering before, also many thanks for the parliamentary report, which came yesterday. Have to look at it at the weekend, which is thanks to our Queens Birthday a long one.

My debt is, if correct dollar 37.90 Canadian, which will be soon reduced.

For our August Meeting my old friend, Prof. B.Y. Mills is guest speaker (Radiotelescope type Mills-Cross). He is giving his talk on Pulsars, which made him world-famous. So if we would be crackpots and cranks, he certainly would not come to us. Also other scientists here quite interested in UFO-Aspects, although mostly not coming out in the open, like probably in your own Country.

Two of your copies are sold in advance, the others should go soon, might require more, when I paid my debts.

Sightings-wise not much to say, only about six the whole year so far. But had some publicity in newspapers, also had a number of interviews on TV & Radio.

Hope to hear from you when you get round, regards,

Yours sincerely

William E. MOSER J.P.,  
Honorary Secretary.
