

BSRA No. 2 - A: FLYING SAUCERS AND THE NEW CONSCIOUSNESS - Proposes the idea that the elusive ships from outer space are forcing us to become aware that other dimensions of time and space are around us and within us. BSRA calls this the 4-D explanation of the Flying Saucers and says they are materializations from the Fourth Dimension. This explanation is rejected by the authorities in science and no political pundit would dare offer this to his constituents and hope to remain in office! Nevertheless the evidence for the Visitors' presence is incontrovertible, as Mr. Crabb shows in this illustrated talk; and we will have to try to come to some kind of an understanding of them, sooner or later. He reviews the granddaddy of all Saucer sightings by Harold Dahl, the Maury Island - Puget Sound incident of June 21, 1947 -- also the San Diego sighting of Oct. 9, 1946, first reported in BSRA publications. . . . \$2.25

BSRA No. 2 - B: FLYING SAUCERS AND THE COMING SPACE PROBES - Discusses the probability that true deep space flight is impossible for man in his physical body, and suggests the possibility that present physical structures won't hold together beyond the earth's magnetic field. The real reason for the U.S. Government's "silence policy" on Flying Saucers is given. Here also Mr. Crabb speculates on the probability of a Saucer landing at Edwards Air Force Base, California, in early 1954, gives new data on the tragic Mantell case of 1949, and reports on the findings of the Norwegian government regarding the crashed Spitzbergen spaceship of 1952. He charts the range of consciousness from matter to energy (or from physical to pure Spirit, depending on the point of view) and also discusses the evidence for the decay of our civilization. Illustrated, charts, 8x11, 28 pages mimeo. . . . \$2.25

BSRA No. 2 - C: FLYING SAUCERS AND AMERICA'S DESTINY - This is the lecture that contains so much data on the Polar Flip hypothesis. But more important than that is the revelation of America's leading place in the New Age, once the cataclysmic activity is over. He compares scientific data on the planetary cycles with that of certain astrologers, the Theosophical Society, the Space Teachers of George Van Tassel. Other subjects touched on in this well illustrated talk are: the sinking of Atlantis, the Judgment Day, the Trance of the Change, the prophecy of George Washington, and the role of the Space Visitors at this time. The master, the major and the minor planetary cycles of the last 25,900 year period are charted. . . . \$2.25

BSRA No. 2 - D: COMMUNICATION WITH FLYING SAUCERS (And Their Occupants) Here we have an analysis of the problem of communication with outer space, both from the standpoint of the Visitors and the Invaders in our skies, and from that of the human being who yearns for more Light from Heaven. As the Venusian told Paul Vest in Santa Monica in 1953: "Our problem is to find people who can understand without fear, and cooperate without hesitation." So, this talk starts off with an explanation of the five different kinds of ESP, or mediumship, and the three types of contact. Included in this is a description of the characteristics of the psychic racketeer, and of the sincerely deluded contactee, mostly from Mr. Crabb's personal observation of them. There is also a listing of the seven basic character principles necessary for mediumship of the highest order, based on Manly Hall's writings. The talk concludes with a review of data on physical contacts with Venusians in Los Angeles in 1953. Illustrated, 8x11 mimeo, 28 pages. . . . \$2.25
