

Sept 17 1929

Dear Carol,

Thanks for your letter and
copy of Topsides - your write up is
perfect - Thanks a lot - may it help
others.

As for my coming to
Ottawa - I'm not positive about it.
until the 24th I will let you
know - And as for the Test.

I am not interested in casting
my time - I thought the metal
was still at the Research dept!

I am only interested IF
the government agents - Engineers
Scientist Etc - were not able
to give a positive statement
or prove what it is - and - or -
where it came from -
