8:30-9:00

SPACE-WISH. Otherwise more honestly called TBA (to be announced), but no series on space should neglect Alice in Wonderland; and Gulliver in his travels had some wierd trips; and as for Dante's Divine Comedy, what splendid deployments of space! We hope to bring you news from these familiar spaces.

Definitely scheduled will be two talks with musical illustrations by Peter Garvie, Director of the Department of Fine Arts, Victoria University, one called "Music in Space", and the other "Space in Music".
