Dear Brian:

It was a pleasure to meet you after the long correspondence we have had. I enjoyed our chat very much.

I mentioned to you about the difficulty I have had in getting anything out of Dr. Tennyson concerning his study at the U of T. I have enclosed a copy of his latest letter to me on this matter and as you can see, it just seems impossible to get a thing out of him. Very frustrating, as usual. I give up on him. Thought you would be interested in seeing his letter.

I look forward to meeting with you again the next time I visit Winnipeg.

Sincerely,

Arthur Bray
