

(2) A North American "Summit Meeting" from 1:30 to 3:30 p.m. and (3) A Worldwide or "Global Perspective" session from 3:45 to 5:00 p.m. The purposes of the Summit Meeting would include (1) To unite our total efforts to resolve the UFO phenomenon. (2) To **present a united front** to the scientific community and the news media in the United States and Canada. (3) To establish teams of professional investigators throughout North America. (4) To determine specialized research assignments that each organization is most qualified to perform. (5) Set up a public relations committee of competent and qualified writers that are capable of obtaining favorable news coverage to help educate the scientific community and the general public concerning the UFO phenomenon. (6) The public relations committee would have the responsibility for systematically responding to the unfavorable propoganda being disseminated by the UFO Sub-Committee of the Committee for the Scientific Investigation of the Paranormal. (7) Elect a member or members to represent the United States to the Provisional International Committee for UFO Research (PICUR). (8) Provide direction to the representative(s) to PICUR so that a worldwide network of research teams in all countries could be established in the areas of field investigations, reporting, computerization of reports, assignment of research projects, financing, etc. (The plans of Project URD should be evaluated as it relates to this point. (9) Research Committees composed of qualified people should be organized in such diverse fields as medicine, hypnosis, photography, propulsion techniques, field investigations, veterinaries for animal reactions, psychologists, and laboratories available for soil and metal analysis.

The worldwide or Global Perspective Meeting in conjunction with the 1982 MUFON UFO Symposium in Toronto would be a forum for representatives of all nations to present their views, proposals, and ideas to further the work initiated by PICUR at their two London conferences. It is con-
