Attention: Mr. Bruno Geruzzi

Dear Mr. Geruzzi:

I was pleased to hear your discussion with Dr. Peter Millman on Wednesday, 27th November, on the subject of UFOs. There are, unfortunately, not enough people who ask serious questions about this strange mystery in our skies. Indeed, the public in general is very misinformed on this topic, and this is regrettable.

Because of public ignorance and misinformation, I wrote a book dealing with the matter in some depth. It is titled SCIENCE, THE PUBLIC AND THE UFO and is a philosophical study of the scientific investigation of UFOs and it is now arousing interest in scientific and academic circles.

Should you be interested in pursuing your inquiries further, a copy of my book is available in the CBC reference library, Toronto.

Yours truly,

Arthur Bray
