

NEW UFO DOCUMENTS:

---HOAX OR PROOF OF ALIEN VISITATIONS?

08 JUNE '87

EXECUTIVE SUMMARY:

If the attached documents are genuine, as all evidence obtained until now indicates, then the following conclusions can be drawn:

1. In July, 1947, a flying saucer crashed in New Mexico, was recovered by the U.S. government. Initially a press release was issued confirming the event. The next day the "fix" was in and the matter was explained away by an Air Force general.
2. Bodies of alien beings were recovered near the saucer.
3. A small group known as "Majestic 12" was established by President Truman to take charge of the technical, sociological and other aspects of the situation. A number of outstanding military and scientific persons were involved.
