

reports have been received by NRC. In 1969, there were 180, and in 1968, a total of 192.

I am unable to make any inquiries within DND, so I cannot help concerning whether Greenwood investigated further after making their report. Nothing else from them is on file.

Re the "slag". I have again written a lengthy letter to Peter M. and expect to hear something from him soon, but probably more excuses. Will keep you informed.

Best regards,

Art B.
