NATIONAL INVESTIGATIONS COMMITTEE ON AERIAL PHENOMENA

1536 Connecticut Avenue
Washington 6, D. C.
Telephone - NOrth 7-9434 * Cable Address - "SKYLIGHT"

—Recently created in Washington, D. C. to serve as a national clearing house and library in the examination, validation and registration of aerial phenomena.

—Policies of the Committee will be established by the Board of Governors to be made up of persons of national prominence. Names of the official membership of the Committee will be announced shortly.

—The work of the Committee is performed by ten sections and ten subcommittees, as follows:

SECTIONS	SUBCOMMITTEES
Administrative	Policy and Steering
Investigations	Membership
Technical Interpretations	Government and Military Liaison
Abstract Interpretations	Industrial and Commercial Liaison
Library and Statistics	Church Liaison
Publications	Physical Sciences
Public Relations	Abstract Sciences
Government Relations	Library
Religious & Philosophic Considerations	Publications
International Coordination	Finance and Awards

—The National Investigations Committee plans to publish two periodicals:

1) "PROJECT SKYLIGHT"--a monthly scientific journal containing a record of meetings and matters of interest to the membership; also statistics and summaries of important investigations conducted by the Committee. This publication will contain authoritative technical articles on the subject of space flight and the progress being made in the United States and various countries in the world.

2) "SPACE FLIGHT"--a popular monthly magazine of high quality, semi-technical, with photographs in color and with occasional carefully selected science fiction. Both publications are to be controlled by the rigorous editorial policy of the National Committee.

—Information in greater detail will be contained in an illustrated booklet to be released shortly.
