

- (2) Implementation of post hypnotic suggestion to carry out a specific activity during a specific time period, the actuation of which will occur within the next 2 to 5 years.
- (3) Termination of some people so that they could function as living sources for biological material and substances.
- (4) Termination of individuals who represent a threat to the continuation of their activity.
- (5) Effect genetic engineering experiments.
- (6) Impregnation of human females and early termination of pregnancies to secure the crossbred infant.

The U.S. Government was not initially aware of the far reaching consequences of their 'deal'. They were lead to believe that the abductions were essentially benign and since they figured the abductions would probably go on anyway whether or not they agreed, they merely insisted that a current list of abductees be submitted, on a periodic basis to MJ-12 and the National Security Council.

Does this sound incredible? An actual list of abductees sent to the National Security Council? Read on, because I have news for you.

The EBE's have a genetic disorder in that their digestive system is atrophied and not functional. Some speculate that they were involved in some type of accident or nuclear war, or possibly on the back side of an evolutionary genetic curve. In order to sustain themselves they use an enzyme or hormonal secretion

obtained from the tissue that they extract from humans and animals. (Note: cows and humans are genetically similar. In the event of a national disaster cow blood can be used by humans.)

The secretions obtained are then mixed with hydrogen peroxide and applied on the skin by spreading or dipping parts of their bodies in the solution. The body absorbs the solution then excretes the waste back through the skin. The cattle mutilations that were prevalent throughout the period from 1973 to 1983 and publically noted through newspaper and magazine stories and included a documentary produced by Linda Howe for the Denver CBS affiliate KMGH-TV, were for the collection of these tissues by the aliens. The mutilations included genitals taken, rectums cored out to the colon, eyes, tongue and throat all surgically removed with extreme precision. In some cases the incisions were made by cutting between the cells, a process we are not yet capable of performing in the field. In many of the mutilations there was no blood found at all in the carcass, yet there was no vascular collapse of the internal organs. This has been also noted in the human mutilations, one of the first ones of which was Sgt. Jonathon P. Louette at the White Sands Missile Test Range in 1956 who was found three days after an Air Force Major had witnessed his abduction by a 'disk shaped' object at 0300 while on a search for missile debris downrange. His genitals had been removed, rectum cored out in a surgically precise 'plug' up to the colon, eyes removed and all blood removed with again, no vascular collapse. From some of the evidence it is apparent that this surgery is accomplished in
