

Time 2:05 p.m. EST Oct. 9, 1988

The following telephone interview took place on October 9, 1988 between T. Scott Crain, Jr. of Julian, Pennsylvania and Dr. Eric A. Walker of State College, Pennsylvania. This interview was written down immediately after our conversation and is precise as I can recall it. (Not For Circulation)

Walker: Hello

Crain: Hello Dr. Walker, ^{THO U SCOTT CRAIN} how are you today.

Walker: Good.

Crain: I'm doing some research now on something called Majestic-12.
I understand you are familiar with that group.

Walker: Say it again.

Crain: MAJESTIC-12.

Walker: I'm not familiar with that.

Crain: A friend of mine in California sent you a briefing document called Operation Majestic-12 dated November 18, 1952, to President-elect Eisenhower.

Are you familiar with that document he sent you?

Walker: I've have to check with my secretary. But no, I don't recall that.

Crain: Then let me ask you this; he claims he got a letter back from you with comments of what your opinion is on the document. It had to do with a crashed object back in the 1950s of a flying saucer. Your letter indicated the beings were not found dead, but alive, and that they were integrated back into society.

Walker: I don't know what your talking about.

Crain: Then I guess someone else sent the letter and signed your name to it.

Walker: That's happened before.

Crain: O.K., I guess you can't help me on this.

Walker: O.K., goodbye.
