

observations that are volunteered. I believe the proper method is to contact these witnesses and secure a fully documented report of the sightings. I am sure that our organization has investigated a substantially greater number of sightings than the RCAF or the NRC over the past year and this has assisted us in corroborating reports and determining that there are definite patterns to these reports.

As stated before we will have someone contact you in the near future and in the meantime I would appreciate receiving the fireball reporting form as mentioned in your last letter.

Yours truly,

Brian C. Cannon,
Director.
