Of the photostatic copies of these 3,000 and more pages about UFOs, FSR has so far received just a few, via various channels, and principally via Mr. Tim Good. We propose to reproduce these below, with printed versions of their texts. (Some readers of FSR will already have seen the text of some of these documents reproduced in *The Roswell Incident* [Berlitz and Moore] but we think that most of our readers will not have seen that book yet, so we feel fully justified in utilizing so much space on this matter.)

Those who wish to know the whole story and read all the documents, will of course have to read CLEAR INTENT, as well as any further revelations that may appear later about all the UFO secrets still in the bulging Government files.
