

This Fourth Edition of the Blue Book Special Report No. 14 is loyally and Respectfully Dedicated to the late

John Fitzgerald Kennedy

President of the United States
1961-1963

If he might have been allowed to live through his full span of office, the invisible government which increasingly stretches out from our para-military complex would have been kept under better control; and vice versa.

TABLE OF CONTENTS

Note: The first column refers to Dr. Davidson's handwritten numbers from previous editions. These are retained in this edition because of the internal references to them. For convenience, however, the present publisher has added consecutive numbers to the pages in this Fourth Edition, which are placed at the top inside of the pages, adjacent to binding, and are referred to in the second column below. (Original page numbers of the documents reproduced are in all cases at the bottom of pages. These numbers are reproduced as they appeared on the original documents, and are not designated in the Contents below)
