Dear Major VonKeviczky,

Thank you very much for your letter of the 27th February and for enclosing me the most interesting and informative Memorandum about the UFO activity on our planet which you passed on to the United Nations.

I am, indeed, greatly honoured to be sent this Memorandum, which I am reading with great interest. I might add that I am reading it chiefly, on purpose, in the House of Lords Library, so that I can bring it to the attention of some of the other Peers there that I know are interested in this very important subject, such as the Earl of Kimberley, who supported me so well in the UFO Debate.

Since the Debate a number of Peers have told me that they would like to join, so now we are having our first meeting on the 10th of April, really just to elect officers, and have a kind of seminar.

However, after that first meeting, I am hoping to get well-known UFO researchers to come and address the Group in the House of Lords, such as for instance your good self, Claude Pöher from the National Centre for Space Studies in Toulouse; Antonio Ribera from Spain; Aimé Michel, also from France; and many more that you and I could easily think of to address their Lordships.

Very many thanks again,

Sincerely,
Clancarty.
Earl of Clancarty.
