

# GERALD LIGHT

(OF LONDON)

GERALD LIGHT IS A PROPHET OF THE NEW AGE IN THE BEST TRADITIONS OF the great mystics. Author of many books on philosophical subjects he is, however, best known for his remarkable paintings and pictures of the Astral Kingdoms and their Beings of Light.

As an intermediary between the Inner and outer worlds, GERALD LIGHT has won great distinction in Europe and The Far East for his high purpose and spiritual integrity as a Messenger of the Spirit.

Through the medium of his LIGHT LECTURES this modern mystic brings to the Students of America a new vision of Spiritual Wisdom and Metaphysical Knowledge. The LIGHT LECTURES have aroused immediate interest from the great body of Spiritual Students who believe that the warlike demands of the present age require greater Instruction in the Divine Mysteries than has been offered by most teachers.

Through Spirit-Pictures and Astral-Images, given to him by Those Great Teachers in the Invisible, GERALD LIGHT has entertained vast audiences from coast to coast---and offered personal Instructions to the comparatively small body of earnest Workers in the Truth.

FOR YOUR INFORMATION, BORDERLAND SCIENCE RESEARCH ASSOCIATES SAY: "GERALD LIGHT has given Mankind the most concise piece of Occult information since Ancient Times." The Mark Probert Controls say: "We did not know there was anyone capable of receiving such laws and making the right use of it" (until G.L. gave it to the world.)

For those of our friends who have not heard GERALD LIGHT, of London, there is a delightfully different experience in store for you. For with no ballyhoo whatever this distinguished mystic, author and artist has rapidly won a respected place in the ranks of America's outstanding teachers. His is a Great Aquarian Voice of Courage.
