UNIDENTIFIED AERIAL OBJECTS

Incident No. 1

1. Date of Observation 1 June 1949 Date of Interview 29 June 1949
2. Exact time of observation (local) 1930
3. Place of Observation: Near "Mary Farm" - 2 miles northwest of Stewart Field,
(Map Coordinates) New York.
4. Position of observer (air, car, bldg, location of - give details:
Standing outside the "Mary Farm."
5. What attracted attention to object: While studying stars.
6. Number of objects and sketch of formation or grouping: One
7. Apparent size (compare to known object, i.e., sun, moon, thumb
or fist at arms length): Approximately one-quarter size of the moon.
8. Color of object: Yellowish-white, shiny.
9. Shape (give graphic description - compare with known object):
Form of inverted exclamation mark.
10. Altitude (Angle of elevation above horizon - 0° at horizon,
90° overhead): 40° to 50° - azimuth 10° to 70°.
11. Direction from observer (Angle clockwise from North):
When first seen? When last seen?

Northwest
12. Distance from observer (Distance to town, bldg, etc., over
which object appeared to be):
Unknown
13. Direction of flight of object (s): Wind seemed to be moving it.
14. Time in sight: 15 to 20 minutes.
15. Velocity (time to cover given angular distance): 70° to 80° in that
time — 4° per minute.
16. Sound and odor: None.

UNCLASSIFIED

DOWNGRADED AT 3 YEAR INTERVALS.

UNCLASSIFIED

Incident No. _____

17. Trail (color, length, width, persistence, etc.) None.
18. Luminosity (visible by reflection, incandescence, other - degree of brilliance): Bright
19. Projections (fins, wings, rods, antennae, canopies, etc.):
Didn't see any other than dot under exclamation point.
20. Maneuvers (turns, climbs, dives, etc. - sketch of flight path):
None other than wind movements.
21. Manner of disappearance: Faded slowly.
22. Effect on clouds: Clear
23. Additional information concerning object: None
24. Weather conditions and light at time of sighting:
Very favorable - sun had set but still light outside.

Name and address of observer: Mr. ~~XXXXXXXXXXXX~~ Newburgh, N.Y.

Occupation and hobbies: Music - mathematics.

Comments of Interrogator relative to intelligence and character of observer (Check neighbors, police dept., FBI records, employer, etc):

Observer's character was good.

Did observer wear glasses, especially polaroid glasses at time of sighting, or was object viewed through canopy, window, or other transparent material?

Observer did not wear glasses.

Incident No. _____

Relative to Radar Sightings

1. Re radars now operating on ground
 - a. Observations of direction, range, speed, altitude and size of target:
 - b. Did target execute any turns? If so, what angle (180°), etc, and what radius of turn. If radius of turn was not observable, how long did the target stay in the turn and what was its speed?
 - c. Note particularly any separation of distant target into several targets upon approach:
 - d. Was radar blip on cathode ray tube well defined and consistent with size of object; faint; fading, pulsating at regular rate:
 - e. Did radar echo signal disappear suddenly or gradually?
2. If airbourne, when object was sighted
 - a. Were there any radar indications or extra noise on radio circuits:
 - b. Give estimates of size, speed, maneuvers, etc.:

GENERAL

1. Teletype sequences of local weather conditions:

✓ Mr. Fred Willis

Incident No. 1

- 252
1. Date of Observation 1 June 1949 Date of Interview 29 June 1949
 2. Exact time of observation (local) 2130 hours, 1 June 1949, EST.
 3. Place of Observation: Walden, New York
(Map Coordinates)
 4. Position of observer (air, car, bldg, location of - give details:
Standing in front of United Cigar Store, Walden, New York.
 5. What attracted attention to object: Word of seeing object in the sky caused me to go outside the store to see what was happening.
 6. Number of objects and sketch of formation or grouping: One object in the shape of First Quarter moon, -- only longer.
 7. Apparent size (compare to known object, i.e., sun, moon, thumb or fist at arms length): Size of the moon only longer.
 8. Color of object: Yellowish-white.
 9. Shape (give graphic description - compare with known object):
Shape of First Quarter moon, only longer.
 10. Altitude (Angle of elevation above horizon - 0° at horizon, 90° overhead): Approximately 85°.
 11. Direction from observer (Angle clockwise from North):
When first seen? When last seen?
Northwest - same
 12. Distance from observer (Distance to town, bldg, etc., over which object appeared to be):
Directly in the center of the city of Walden, New York.
 13. Direction of flight of object (s): Did not observe the object more than one or two minutes, therefore, could not determine the direction of flight.
 14. Time in sight: "Only for a few minutes as I had to get back to work."
 15. Velocity (time to cover given angular distance): Unknown.
 16. Sound and odor: None.

17. Trail (color, length, width, persistence, etc.) Longer than from tip to tip of the quarter moon.
18. Luminosity (visible by reflection, incandescence, other - degree of brilliance): Medium-bright.
19. Projections (fins, wings, rods, antennae, canopies, etc.): None
20. Maneuvers (turns, climbs, dives, etc. - sketch of flight path):
Did not remain to observe maneuverability.
21. Manner of disappearance: Same as (20) above.
22. Effect on clouds: None. Perfectly normal.
23. Additional information concerning object: None
24. Weather conditions and light at time of sighting:
Weather condition was normal. No clouds.

Name and address of observer: Mr. [REDACTED] Street,
Walden, New York

Occupation and hobbies: Soda fountain clerk.

Comments of Interrogator relative to intelligence and character of observer (Check neighbors, police dept., FBI records, employer, etc):

Did observer wear glasses, especially polaroid glasses at time of sighting, or was object viewed through canopy, window, or other transparent material?

No glasses were worn.

UNIDENTIFIED AERIAL OBJECTS

✓ Mr. Arthur J. Gutter

Incident No. 1

1. Date of Observation 1 June 1949 Date of Interview 29 June 1949
2. Exact time of observation (local) Approximately 1930
3. Place of Observation: Due west of Malden, New York. Same position of
(Map Coordinates) the moon at that date.
4. Position of observer (air, car, bldg, location of - give details:
On ground. 64 Main Street, Malden, N.Y.
5. What attracted attention to object:
Followed the public.
6. Number of objects and sketch of formation or grouping: One chainlike
object with 5 or 6 balls of fire chained together hanging vertical position.
This object seemed to be drifting north very slowly.
7. Apparent size (compare to known object, i.e., sun, moon, thumb
or fist at arms length):
Answered in (6) above.
8. Color of object: Yellowish-white.
9. Shape (give graphic description - compare with known object):
Answered in (6) above.
10. Altitude (Angle of elevation above horizon - 0° at horizon,
90° overhead):
Unknown - 45° as over the head.
11. Direction from observer (Angle clockwise from North):
When first seen? When last seen?
West from observer -- last seen west by southwest.
12. Distance from observer (Distance to town, bldg, etc., over
which object appeared to be): Unknown
13. Direction of flight of object (s): South and down.
14. Time in sight: 15-20 minutes.
15. Velocity (time to cover given angular distance): Unknown
16. Sound and odor: None.

UNIDENTIFIED AERIAL OBJECTS

Incident No. 1

1. Date of Observation 1 June 1949 Date of Interview 24 June 1949
2. Exact time of observation (local) 1830 to 2030 EST.
3. Place of Observation: Fine Bush, New York.
(Map Coordinates)
4. Position of observer (air, car, bldg, location of - give details:
Standing in backyard of home in Fine Bush, New York.
5. What attracted attention to object: "A truck driver passing by called my attention to the object."
6. Number of objects and sketch of formation or grouping:
(See attached sheet for this number)
7. Apparent size (compare to known object, i.e., sun, moon, thumb or fist at arms length): In comparison to the moon it was not as high as the Half Moon at highest point but was longer from tip to tip. Had to look carefully to see object move.
8. Color of object: (See attached sheet for this number)
9. Shape (give graphic description - compare with known object):
The shape of a snake.
10. Altitude (Angle of elevation above horizon - 0° at horizon, 90° overhead):
0° at horizon and 70° overhead.
11. Direction from observer (Angle clockwise from North):
When first seen? When last seen?
(See attached sheet for this number)
12. Distance from observer (Distance to town, bldg, etc., over which object appeared to be): Unknown.
13. Direction of flight of object (s): When first seen it was east of the moon -- it moved slowly around the moon and was headed west of the moon when it disappeared.
14. Time in sight: Three hours.
15. Velocity (time to cover given angular distance): None.
16. Sound and odor: None

DOWNGRADED AT 3 YEAR INTERVALS.

DOD DIR 520

UNCLASSIFIED

Observer: (Witness)

S/Sgt. [REDACTED]

Additional Sheet:

(6) Number of objects and sketch of formation or groupings:

Object looked to be an oblong shape with a smaller object attached in front of the larger object. Smaller object was not noticeable until binoculars were used.

(8) Color of object: Through binoculars it appeared to have colors of a rainbow (very soft colors) which had a tendency to fuse mostly with yellow.

(11) Direction from observer:

When first seen it appeared to be northwest from the moon and approximately two hours later the object had moved halfway around the moon and appeared to be directly west of the moon. During this time the observer stated he heard a sound as that of an airplane and sound similar to a rifle shot immediately following the rifle shot sound the object disappeared. There were no signs of the airplane.

TO: CO, Stewart Field, Newburgh, New York

1. A marked similarity exists between the unidentified aerial phenomenon described by inclosure to basic letter and the appearance of meteorological or upper air research balloons and their related equipment in flight.

2. Our information indicates that facilities of Stewart Field are sometimes utilized by the New York University as a release site for balloons of this nature.
